

**COMMANDING OFFICER
BLOUNT ISLAND COMMAND
MARINE CORPS SUPPORT FACILITY BLOUNT ISLAND
ENVIRONMENTAL POLICY STATEMENT**

The Marines, Sailors, civilians, and industry partners of Blount Island are all members of a historic program that continues to provide critical logistics capabilities to the Marine Corps and to the operational commanders in every theater across the globe. Our ability to respond rapidly to global crises and contingencies is achieved through the dedication and hard work of the people who comprise this command. Strategically located on the St. John's River allows us to fulfill our mission and also heightens our need to be good stewards to the environment and protect our natural resources.

It is the policy of Marine Corps Support Facility Blount Island to protect the current and future capabilities as the hub of the Marine Corps prepositioning programs through respect for and conservation of our natural and cultural resources.

It is our policy aboard Marine Corps Support Facility Blount Island to:

- Protect our natural and cultural resources.
- Comply with all environmental requirements.
- Promote environmental sustainability through pollution prevention, source reduction, recycling, sustainable procurement, and water and energy efficiency and conservation/
- Review all proposed activities for potential environmental impacts in accordance with the National Environmental Policy Act.
- Partner with regulatory agencies and the public to foster strong working relationships and build trust.
- Conserve our air, land, and water resources as vital and fundamental Marine Corps assets

Marine Corps Support Facility Blount Island is committed to environmental protection, regulatory compliance, continual improvement and the prevention of pollution.
